Re: Superior Solvent, 1773 N. Link - Diking of Tanks

Karen Chandler and I talked to the Manager of Superior Solvents and told him that the capacity of their containment area was reduced roughly by 50% due to the fact that they have put pipes through the concrete dike without sealing the area around the pipe. Although it looks like they still have plenty of capacity to contain the volume of the largest tank, they have reduced their total containment by 50%. The manager expressed little concern about the sealing of the area around the pipes, because he has had no problem of spills in his 37 years in the business.

RE: U.S. E.P.A. Effluent Guidelines Plan Affecting Public  
Works Department - Pretreatment Program

Dear Mr. Metzger:

Please find enclosed a copy of a notice in the Federal Register published on Wednesday, May 18, 1994, announcing E.P.A.'s proposed plans for developing new and revised effluent guidelines, which regulate industrial discharges to surface waters and to the P.O.T.W.s. The Clean Water Act requires that E.P.A. publish and solicit comment on the proposals. Comments should be submitted to E.P.A. on or before June 17, 1994.

We hope this information will aid in keeping Industrial Users aware of the latest proposals, changes, and the requirements affecting our Pretreatment Program and ultimately, you the Industrial User.

If you have any questions, please give me a call at 864-1924.

Yours truly,

J. Randall Lyman  
Sewer Surveillance and Billing Supervisor  
Surveillance Enforcement and Billing

RE: Revisions of Chapter 30  
Sewer Use Ordinance

Dear Significant Industrial User:

Please find enclosed a draft of the proposed Chapter 30, Wastewater Regulations, incorporating numerous revisions. Changes include revisions to local discharge limitations, restricted discharges, enforcement procedures, and additional pretreatment program provisions as mandated by Federal and State laws, rules, and regulations. A copy of the Enforcement Response Plan as required by Title 40, Code of Federal Regulations, Part 403.8 (f) (5) is also included.

Written comments should be submitted on or before January 27, 1993, to:

Randy Lyman  
Pretreatment Coordinator  
City of Springfield, Mo.  
1216 W. Nichols St.  
Springfield, MO 65802

If you have any questions, please give us a call at 864-1923.

Yours truly,

J. Randall Lyman

RE: U.S. E.P.A. Effluent Guidelines Plan Affecting  
Public Works Department - Pretreatment Program

Dear Mr. Metzger:

Please find enclosed a copy of a notice in the Federal Register published on Tuesday, September 8, 1992, announcing E.P.A.'s plans for developing new and revised effluent guidelines, which regulate industrial discharges to surface waters and to P.O.T.W.'s. The Clean Water Act requires that EPA publish and solicit comment on the proposals. Comments were accepted by E.P.A. on the notice of proposed plans until June 8, 1992. The enclosed 1992 Effluent Guidelines Plan is substantively identical to the proposed plan.

We hope this information will aid in keeping Industrial Users aware of the latest proposals, changes, and the requirements affecting our Pretreatment Program and ultimately, you the Industrial User.

If you have any questions, please give me a call at 864-1924.

Yours truly,

J. Randall Lyman
